

Visit January 2016

Ingrid has visited Gaza from 2-7 January. Together with: Marjan Theeuwen, a well known international Dutch artist, she is going to make an artwork of a destroyed house by war. Ton Meeuwissen, a psychologist has given a workshop about EMDR to psychologists and people who take care in that field. Hugo Boogaerts, a filmmaker has made a film in four editions for the Dutch Television.

The weather conditions were terrible: cold, wet and no power supplies. But everyone was working very hard en enthusiastic! Jean was very happy to see Ingrid!

On the pictures you can see that a big poster is made for the outside of the building of the Open studio.
